

WORKSHOP STG17 · GOOGLE EARTH ENGINE

S'inscrire à Google Earth Engine

Guide pas à pas pour enregistrer un projet Google Cloud en usage non commercial

Le parcours en six étapes

01

Type d'organisation

Déclarer la nature de votre structure (ex. Nonprofit).

02

Éligibilité non commerciale

Répondre au questionnaire sur l'usage d'Earth Engine.

03

Choix du plan

Sélectionner le palier de quota adapté (Community).

04

Description du travail

Indiquer les enjeux climatiques et domaines d'usage.

05

Validation & API

Vérifier le récapitulatif puis activer l'API.

06

Gestion du projet

Suivre, modifier l'inscription ou créer un projet.

SECTION 01 • ÉTAPE 1 SUR 6

01

Type d'organisation

Quel type de structure représentez-vous ?

SECTION 02 · ÉTAPE 2 SUR 6

02

Éligibilité non commerciale

Votre usage d'Earth Engine est-il non commercial ?

Renseigner le questionnaire d'éligibilité

- 1 Nom de la structure : **INS_Africa.**
- 2 Paiement par des entités commerciales ou publiques ? **No.**
- 3 Type d'usage : **Operational decision making.**

Les subventions de recherche ne comptent pas comme paiement.

The screenshot shows the Google Cloud console interface for the Earth Engine 'Register' process. The page title is 'Register' and the breadcrumb is 'Earth Engine / Configuration / Register'. The left sidebar shows 'Earth Engine' with sub-items 'Overview', 'Tasks', and 'Configuration'. The main content area is titled '2 Check noncommercial eligibility'. It contains several questions with radio button options:

- 'What is the name of your nonprofit? *' with the text input 'INS_Africa'.
- 'Will you receive any payment (including fee-for-service) from commercial entities, operational entities, or government organizations for applications or data created using Earth Engine? Note: This does not include research-only grants. *' with 'Yes' and 'No' options; 'No' is selected.
- 'How would you describe your use of Earth Engine? *' with three options: 'Scientific research' (e.g., advancing remote sensing methodologies), 'Applied science' (e.g., analysis of a real-world problem or place), and 'Operational decision making' (e.g., analysis to support government actions); 'Operational decision making' is selected.
- 'Are you conducting research using Earth Engine? *' with 'Yes' and 'No' options; 'Yes' is selected.
- 'What is the geographic scope of your study? *' with 'Global' and 'Regional' options; 'Regional' is selected.

At the top of the console, a message states: 'Your free trial is over, but you can still access 20+ always-free products with a full account.' The top right has links for 'Learn more' and 'Upgrade'.

Earth Engine / Configuration / Register

Earth Engine Overview Tasks Configuration

Register

☐ Yes
☒ No

How would you describe your use of Earth Engine? *

☐ Scientific research
e.g., advancing remote sensing methodologies

☐ Applied science
e.g., analysis of a real-world problem or place

☒ Operational decision making
e.g., analysis to support government actions

Are you conducting research using Earth Engine? *

☒ Yes
☐ No

What is the geographic scope of your study? *

☐ Global
☒ Regional

Please specify the region *

Africa

Have you previously published work on this topic that used Earth Engine? *

☐ Yes
☒ No

[Check eligibility](#)

1 Recherche avec Earth Engine : **Yes.**

2 Portée : **Regional**, région **Africa.**

3 Travaux déjà publiés : **No.**

4 Cliquer sur **Check eligibility.**

Source : console Google Cloud, étape « Check noncommercial eligibility » (capture d'écran).

Confirmer l'éligibilité

Éligible

« Based on your answers, you are eligible for noncommercial Earth Engine use. »

1 Lire le message de confirmation.

2 Cliquer sur **Next** pour choisir le plan.

The screenshot shows the Google Cloud console interface for Earth Engine registration. At the top, a message states: "Your free trial is over, but you can still access 20+ always-free products with a full account." The navigation bar includes "Google Cloud", "My First Project", and a search bar. The left sidebar shows "Earth Engine" with sub-items: "Overview", "Tasks", and "Configuration". The main content area is titled "Register" and contains several questions with radio button options:

- Scientific research** (e.g., advancing remote sensing methodologies)
- Applied science** (e.g., analysis of a real-world problem or place)
- Operational decision making** (e.g., analysis to support government actions) - This option is selected.

Below these are two more questions:

- Are you conducting research using Earth Engine? *** with "Yes" selected.
- What is the geographic scope of your study? *** with "Regional" selected. Below this is a text input field containing "Africa".

At the bottom, there is a question: **Have you previously published work on this topic that used Earth Engine? *** with "No" selected.

A confirmation message at the bottom states: "Based on your answers, you are eligible for noncommercial Earth Engine use." Below this message is a "Next" button.

SECTION 03 · ÉTAPE 3 SUR 6

03

Choix du plan

De quelle puissance de calcul avez-vous besoin ?

Choisir le palier de quota

COMMUNITY

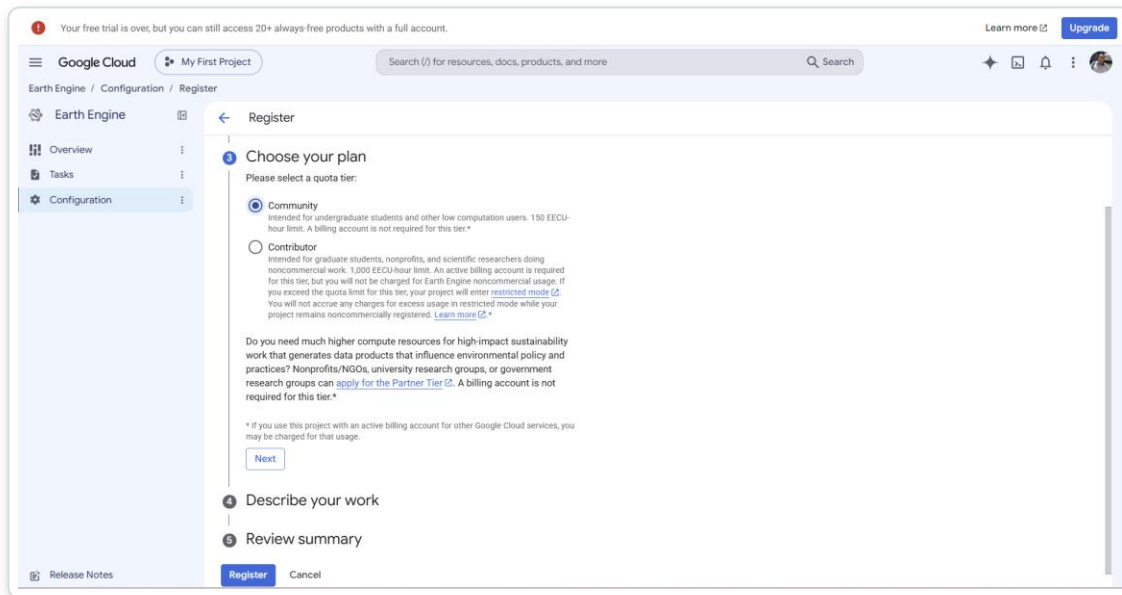

150 EECU-h / mois

Aucun compte de facturation requis. Palier retenu ici.

CONTRIBUTOR

1 000 EECU-h / mois

Facturation active requise, sans frais pour l'usage Earth Engine non commercial.

Source : Google for Developers, « Earth Engine Noncommercial Tiers » ; console Google Cloud (capture d'écran). EECU = unité de calcul Earth Engine.

SECTION 04 · ÉTAPE 4 SUR 6

04

Description du travail

À quels enjeux climatiques votre travail contribue-t-il ?

Décrire votre travail

The screenshot shows the Google Cloud console interface for Earth Engine registration. The left sidebar contains 'Overview', 'Tasks', and 'Configuration'. The main area is titled 'Register' and shows a progress bar with four steps: 1. Select your organization type, 2. Check noncommercial eligibility, 3. Choose your plan, and 4. Describe your work. Step 4 is active. It asks 'Does your work with Earth Engine fall into any of these categories?' with three options: 'Mitigation' (unchecked), 'Adaptation' (checked), and 'Protection & conservation' (checked). Below this, it asks 'Will you use Earth Engine for any of the following? *' with a dropdown menu. At the bottom, there is a 'Next' button and a 'Review summary' section with 'Register' and 'Cancel' buttons.

Catégories cochées

– Mitigation

✓ Adaptation

✓ Protection & conservation

1 Cocher les catégories pertinentes.

2 Renseigner le champ **Will you use Earth Engine for...** (obligatoire).

Source : console Google Cloud, étape « Describe your work » (capture d'écran).

Sélectionner les domaines d'usage

- 1 Ouvrir la liste déroulante.
- 2 Cocher au moins un domaine — ici **AI / ML**.
- 3 Valider avec **OK**, puis **Next**.

Champ obligatoire : sans sélection, « This field is required » bloque la suite.

Your free trial is over, but you can still access 20+ always-free products with a full account. [Learn more](#) [Upgrade](#)

05

Validation & API

Tout est-il correct avant de valider ?

Vérifier le récapitulatif

The screenshot shows the 'Register' page in the Google Cloud console for Earth Engine. The page is titled 'Register' and contains a summary of the registration information. At the top, a message states: 'Your free trial is over, but you can still access 20+ always-free products with a full account.' The left sidebar shows the 'Earth Engine' section with 'Configuration' selected. The main content area displays the following information:

- Region:** Africa
- Usage:** Have you previously published work on this topic that used Earth Engine? No
- Your plan:** Selected quota tier: Community
- Your work:** Does your work with Earth Engine fall into any of these categories? Adaptation, Protection & conservation. Will you use Earth Engine for any of the following? Artificial intelligence and machine learning (AI / ML)

A privacy notice at the bottom states: 'This information is collected to verify noncommercial eligibility, inform product improvements, and assess the sustainability impact of Earth Engine usage, subject to the [Google Cloud Privacy Notice](#).' At the bottom right, there are 'Register' and 'Cancel' buttons.

Update answers

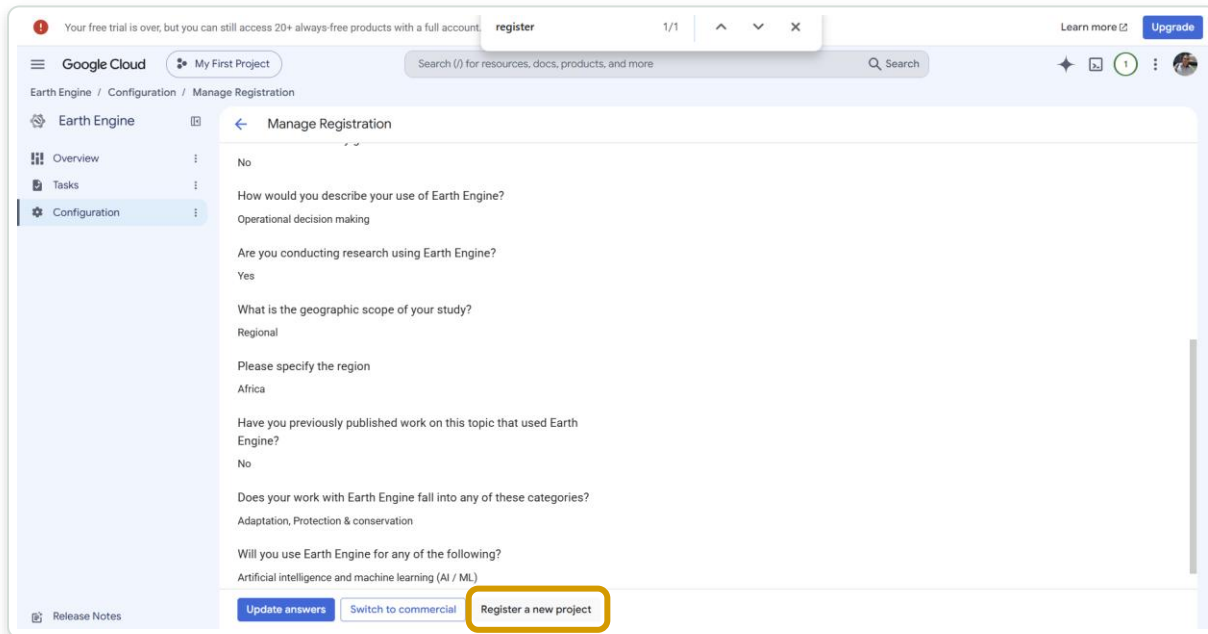

Mettre à jour les réponses.

Switch to commercial

Passer à un usage commercial.

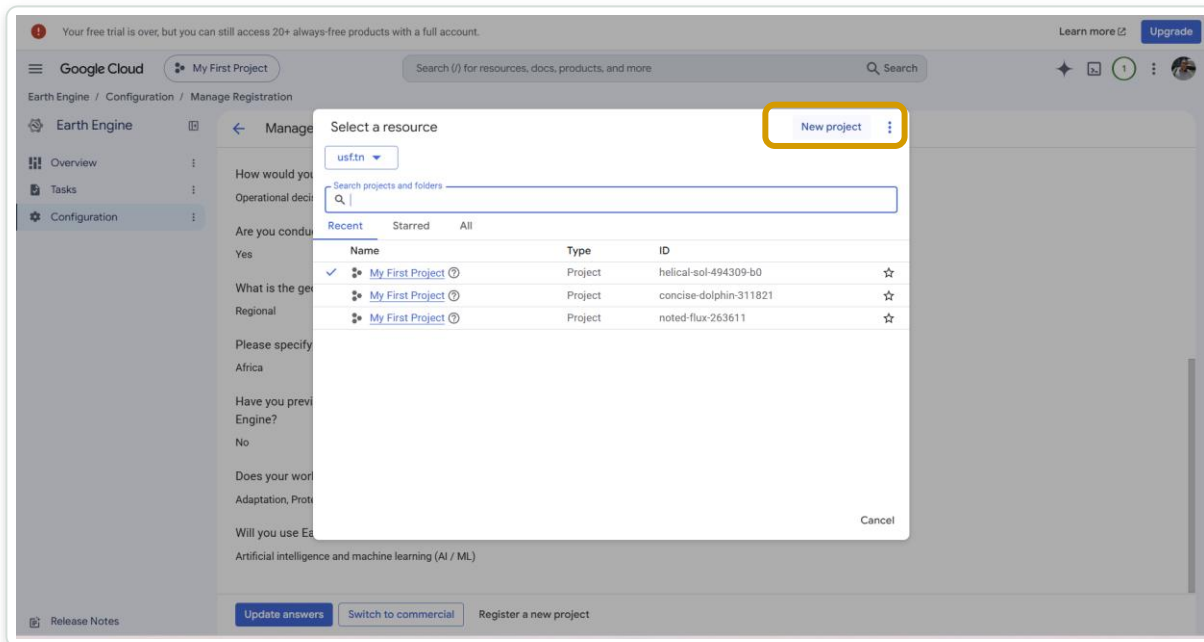

Register a new project

Inscrire un autre projet.

Source : console Google Cloud, page « Manage Registration » (capture d'écran).

Choisir ou créer un projet

- 1 La fenêtre **Select a resource** liste vos projets.
- 2 Choisir un projet existant par son ID...
- 3 ... ou cliquer sur **New project**.

Plusieurs projets peuvent porter le même nom : fiez-vous à l'ID.

Source : console Google Cloud, fenêtre « Select a resource » (capture d'écran).

Créer un nouveau projet

- 1 Saisir le **Project name**.
- 2 Renseigner **Organization** et **Parent resource**.
- 3 Cliquer sur **Create**.

L'ID du projet et l'organisation ne peuvent plus être modifiés après création.

The screenshot shows the 'New Project' form in the Google Cloud console. At the top, there's a search bar and the 'Google Cloud' logo. Below the title 'New Project', a yellow warning box states: 'You have 21 projects remaining in your quota. Request an increase or delete projects. [Learn more](#)'. Below this, the 'Project name' field is filled with 'My Project 90385'. The 'Project ID' is shown as 'proven-now-509714-m3'. The 'Organization' is selected from a dropdown menu. The 'Parent resource' is also selected from a dropdown menu. At the bottom, there are 'Create' and 'Cancel' buttons.
